

Reference List

Item	Denomination and Capacity	Country	Client	Date of supply
References of MWE Mill Solutions GmbH since 2001				
101	Engineering, design and manufacturing of new parts of compactor for wire rod coils	India	Bhilai Steel Plant	March 2027
100	Engineering, design and delivery of distribution gear box for wire rod block	India	Bhilai Steel Plant	March 2026
99	Engineering, design and delivery of complete equipment for laboratory rolling mill	Germany	Leibniz Institut Bremen	June 2027
98	Engineering and design of complete equipment for small section mill	Turkiye	Beisco	April 2026
97	Delivery of new laying head 60 m/s	India	Bhilai Steel Plant	November 2025
96	Engineering and design of complete equipment for medium section mill	India	Rungta Mines/ ASPM	January 2026
95	Delivery of new brake pads for cold shear	Saudi Arabia	Altuwairqi Group	February 2025
94	Delivery of two new pinch rolls 60 m/s upstream of laying head	India	Bhilai Steel Plant	August 2024
93	Engineering and design of multistrand housingless straightening machine	Turkiye	Kardemir/Beisco	January 2026
92	Delivery of new roll gap adjustment system 360 for our SKET mill stands	Saudi Arabia	Altuwairqi Group	April 2024
91	Engineering, design and delivery of new cardan shafts for our SKET mill stands	Saudi Arabia	Altuwairqi Group	April 2024
90	Four stand multi driven Block 40 m/s rebar high speed	India	Rana Udyog	January 2024
89	Engineering and design of Main equipment for heavy section mill (BD stand; straightener, Cooling bed	India	Shyam/ASPM	April 2024
88	Engineering and design of Cooling bed dividing shear	Turkey	Beisco/IDC	August 2023
87	Four stand multi driven Block 40 m/s rebar high speed	India	Rana Udyog	October 2023
86	Special profile hot rolling mill	Germany	VOL	June 2024
85	Fact finding mission of combined wire rod and bar mill for full revamping	Israel	HOD	May 2023
84	Engineering and design of dividing shear for rebars until 50 mm	Turkey	IDC	July 2023
83	Engineering and Design of housingless straightening machine for medium sections	Poland	WOST	September 2023
82	Engineering design and delivery of new drive shaft for vertical mill stands drive gear box	Saudi Arabia	Altuwairqi Group	June 2022

Reference List

Item	Denomination and Capacity	Country	Client	Date of supply
81	Engineering, design and delivery of new cardan shafts for our SKET mill stands	Saudi Arabia	Altuwairqi Group	August 2022
80	Engineering and design of hot saw line with one fixed and two movable saws	China	Kohe steel	October 2022
79	Engineering and design bar bundle bending device for diam. 300 mm	Turkey	Ekinçilir	October 2022
78	Engineering and design of bar and section finishing line with cold saw	Turkey	Celsantas	July 2022
77	Engineering and design of housingless straightening machine for heavy sections 500	Egypt	National steel	June 2022
76	Engineering, design and delivery of housingless universal mill stands 440 for small sections	Turkey	Celsantas	May 2022
75	Engineering, design and delivery of housingless straightening machine for small sections 160	Turkey	Beisco	April 2022
74	Engineering, design and delivery of crop and cobble shear for rolled stocks	Turkey	Celsantas	February 2022
73	Engineering and design of reversible, movable two high BD mill stand 540	Turkey	Beisco	December 2021
72	Basic engineering of block mill stand 1000x2540 mm	Germany	Buderus Edelstahl	June 2021
71	Supervision of manufacturing, erection, and commissioning of Roughing train for high grade steels	Germany	BGH Freital	February 2021
70	Supervision of manufacturing, erection and commissioning of small section mill 350,000 t/a, consulting of manufacturing	Turkey	Celsantas	March 2021
69	Delivery of 3 loop controller with covers	Germany	Annahütte Einring	August 2019
68	Engineering and design of Roughing train for high grade steels	Germany	BGH Freital	June-November 2019
67	Engineering and design, delivery of Universal stand 490	Germany	Zollern	August 2020
66	Engineering and design, delivery of Universal stand 490	Russia	MMK Omutninsk	September 2018
65	Engineering and detail design of small section mill 350,000 t/a, consulting of manufacturing	Turkey	Celsantas	December 2018
64	Engineering and design of base frames for several machines for revamping of metal plant	Germany	Saxonia	February 2018
63	Engineering and design of new air cooling for four main DC drives for intermediate mill stands and new installation	Germany	Riva Group	February 2018
62	Engineering and basic design for basked technology of continuous universal mill stands for sections	Thailand	Siam Yamato Steel	December 2017

Reference List

Item	Denomination and Capacity	Country	Client	Date of supply
61	Engineering and detail design of 500,000 t/a bar rolling mill	Egypt/India	Sarhan Steel	March 2018
60	Engineering and detail design of 2 wire rod outlets with 6-stand blocks 60 m/s	India	Rana Udyog/Scan Steel	February 2018
59	Manufacturing and delivery of prestressed two high hor./vert. mill stands in finishing line	Ukraine	Arcelor Mittal steel Krivoi Rog	December 2017
58	Engineering and detail design of wire rod quenching line and high-speed shear	Morocco/India	Univers Acier via Rana Udyog	August 2017
57	Engineering and detail design of finishing saw line for profiles	Egypt	Egypt section steel	May 2018
56	Engineering and detail design of multi strand straightening machine	Egypt	Egypt section steel	October 2018
55	Engineering and detail design of high-speed bar outlet for existing wire rod mill	Morocco/India	Univers Acier via Rana Udyog	February 2017
54	Engineering and design of full automatic reversible plate mill stand 340 x 400 mm with reversible roller tables	Belgium	Lanxess	December 2016
53	Engineering and basic design for revamping of Medium section mill with housing less three high mill stands	China	HongChang via H&K Koch Shanghai	September 2016
52	Engineering, delivery, commissioning and erection of a tandem mill train for a section mill	Iran	ESCO Esfahan Steel Company	January 2016
51	Engineering, delivery, commissioning and erection of a rail finishing line	Iran	ESCO Esfahan Steel Company	September 2015
50	Engineering, delivery and commissioning of flying shear	Russia	OAO Revjaskinski Metallprokatni Sawod	December 2013
49	Detail engineering, project management, erection and commissioning supervision of medium section mill 500,000t/y.	Turkey/ Iran	CTS Izmir/FAICO Steel Co. Ltd.	June 2013
48	Engineering, delivery, erection and commissioning of roller table for plates with max. weight of 32 t	Germany	Salzgitter AG (location Isenberg)	August 2013
47	Engineering, delivery, erection and commissioning of crank lever shear	Switzerland	Swiss Steel AG (location Emmenbrücke)	August 2013
46	Manufacturing, delivery, erection and commissioning of cooling bed extension	Switzerland	Swiss Steel AG (location Emmenbrücke)	August 2013
45	Engineering, delivery and commissioning of dividing shears and pinch rolls	Russia	Evrast Holding	June 2013
44	Detail Engineering for increasing of cooling bed	Switzerland	Swiss Steel AG (location Emmenbrücke)	July 2012

Reference List

Item	Denomination and Capacity	Country	Client	Date of supply
43	Engineering, delivery, erection and commissioning of a pinch roll unit downstream furnace	Switzerland	Swiss Steel AG (location Emmenbrücke)	July 2012
42	Detail engineering, project management, erection and commissioning supervision of bar rolling mill 500,000t/y.	Turkey/Iran	CTS Izmir/FAICO Steel Co. Ltd.	October 2013
41	Engineering, design erection and commissioning of bar rolling mill 400,000t/y	India	Viki Industries	December 2013
40	Engineering, delivery, erection and commissioning of medium section mill 500,000t/y	Turkey/Iran	CTS Izmir/FAICO Steel Co. Ltd.	February 2014
39	Engineering, delivery, erection and commissioning of special tilting devices, cooling bed and finishing line for special profile, long product rolling mill.	Russia	ZAO metallurgical plant Omutninsk	June 2012
38	Engineering, delivery, erection and commissioning of pinch roll units for Garrett coiler	Switzerland	Swiss Steel AG (location Emmenbrücke)	August 2011
37	Engineering and detail design for furnace group equipment with cold and contiguous hot charging of casted billets	India	Kamachi Sponge & Power Corp./ Chennai	December 2010
36	Inspection of rolling mill and technical study	China/ Germany	CM Chemiometall (location Bitterfeld)	November 2010
35	Pass design and technological calculation to roll rounds of special steel	Germany	BGH Freital	October 2010
34	Engineering of transfer cars and delivery, erection and commissioning with two wire binding machines	Ukraine	ZAO metallurgical plant Makeewka	September 2010
33	Engineering delivery, supervision, erection and commissioning of multiply strand bar cooling line	Korea	Daehan Steel Co. Ltd Busan	September 2010
32	Engineering, design erection and commissioning of bar rolling mill 400,000t/y	India	Kamachi Spong & Power Corp./ Chennai	December 2010
31	Supervision of erection and commissioning of 720,000 t/y small section mill	Ukraine	ZAO metallurgical plant Makeewka	Commissioned June 2009
30	Engineering and delivery for revamping of coil chain conveyor	Switzerland	Swiss Steel AG (location Emmenbrücke)	August 2008
29	Engineering and detail design for turn over cooling bed downstream forging machine diam. 80 mm to 320 mm	Austria	Braun Maschinenfabrik GmbH	November 2008
28	Rolling technology and pass design for rolling of 5.0 mm dia. wire rod of stainless steel	Germany	BGH Freital	October 2008
27	Basic engineering for increasing of cooling bed	Switzerland	Swiss Steel AG (location Emmenbrücke)	September 2008
26	Supervision of erection and commissioning of equipment for second-hand section mill	Saudi Arabia	Al Ittefaq Steel Products Company	August 2008

Reference List

Item	Denomination and Capacity	Country	Client	Date of supply
25	Engineering, delivery, erection, commissioning of unloading station for coils	Switzerland	Swiss Steel AG (location Emmenbrücke)	August 2008
24	Engineering, delivery, erection, commissioning of continuous descaling system for billets	Russia	OAO metallurgical plant Belorezk	September 2008
23	Rolling technology and pass design for blooming mill	Germany	BGH Freital	June 2007
22	engineering and delivery of equipment for revamping of coil handling station	Switzerland	Swiss Steel AG (location Emmenbrücke)	August 2007
21	Engineering and design for new three high mill stands	India	Durgapur Steel Plant	May 2007
20	Revamping of Garret-coiler	Switzerland	Swiss Steel AG (location Emmenbrücke)	August 2007
19	Development, engineering and design of strip coiler for magnesium strips	Germany	ENA GmbH/Freiberg	July 2007
18	Engineering of wire rod block, laying head and pinch roll 60 m/s	India	Rana Udyog (Kolkata)	May 2007
17	Engineering and installation of equipment for section mill	Germany	Lech-Stahlwerke (Meitingen)	October 2006
16	Engineering and delivery of equipment 720,000 t/y for installation of section mill	Ukraine	ZAO metallurgical plant Makeewka	June 2007
15	Engineering and delivery of equipment for 1,000,000 t/y revamping and installation of second-hand section mill	Saudi Arabia	Al Ittefaq Steel Products Company	June 2007
14	Installation of quenching line for bars	Switzerland	Von Moos Stahl AG (location Emmenbrücke)	June 2006
13	Installation of compacting devices for packs of I-beams	Germany	Peiner Träger GmbH (Salzgitter AG)	January 2006
12	Installation of guide tables with water cooling devices for I-beams	Germany	Peiner Träger GmbH (Salzgitter AG)	January 2006
11	Installation of mill guides for reversing two-high mill stand	Germany	Freiberg University	January 2006
10	Revamping of continuous caster	Germany	Riva-Group (Hennigsdorf)	July 2005
9	Revamping of coil transportation system	Germany	Salzgitter AG	July 2005
8	Revamping of gag press	Germany	Peiner Träger GmbH	January 2005
7	Technological and benchmarking study for future development of wire rod mill	Russia	OAO metallurgical plant Belorezk	October 2004
6	Engineering of two strand wire rod blocks 215	India	Rana Udyog (Kolkata)	August 2004

Reference List

Item	Denomination and Capacity	Country	Client	Date of supply
5	Design and delivery of new spindle bearing arrangement	Germany	Peiner Träger GmbH (Salzgitter AG)	August 2004
4	Abrasive cutting machine (in cooperation with Braun Maschinenfabrik Austria)	Russia	AO OEMK Oskol electrometallurgical plant	October 2004
3	Revamping of slitting shears	Germany	MKM Hettstedt	January 2004
2	Development of hot rolling technology for foils of high-strength non-iron metals	Austria	Plansee AG	June 2003
1	Revamping of hot strip mill (0.5 mm at up to 20 m/sec) Housingless mill stand H340	Germany	Freiberg University	May 2002

Reference List
